

4 1/2" - 5" Electric Angle Grinder UWER 15/100 SI
Variable Speed 4,200 to 10,000 RPM

- Designed for professional use with a wide variety of abrasive tools.
- High power output guarantees very good speed stability.
- Adjustable ergonomic design for maximum comfort and versatility.
- Precision engineered with highest quality components for extremely long service life with minimal regular maintenance

4 1/2" - 5" Electric Angle Grinder UWER 15/100 SI

High performance electric angle grinder ideal for all types of grinding and polishing work.

The combination of high power output (1,050 watts) and digital electronic speed control ensures a constant RPM for top performance, even under high loads. The stepless speed variation of 4,200 to 10,000 RPM and the powerful motor ensure optimal working at all speeds.

The grinder is extremely comfortable and easy to handle because of its excellent design, protected throttle switches and ergonomically-angled anti-slip handle.

Special features

- Double insulated 
- Digital-electronic control for constant RPM
- High output guarantees very good speed stability
- Intelligent tool design provides comfortable, ergonomic grip, as well as angling of tool for efficient cutting and grinding.
- 5/8-11 threaded spindle
- Angle head can be dismantled and rotated for cutting use.
- Included protective guard rotates to provide safety during either cutting or grinding
- Advanced air intake system provides cooling to motor even when covered or blocked
- Sturdy and robust tool casing is impact resistant and will not melt or weaken

UWER 15/100 SI 120 V US - Speed Range: 10,000-4,200 RPM / 1500 Watts

EDP No.	PFERD Model Number	RPM	Voltage 50-60 Hz	Power Consumption (Watts)	Horse Power	Max. Amps
91205	UWER 15/100 SI 120 V US	10,000-4,200	120	1530	1.35	12

Ordering Note

This tool ships with an adjustable guard, handle, allen wrench and face wrench and manual.

Elec. Angle Grinder UGER 15/100 SI 120 V US

- Stepless speed variation with markings for (output RPM): 10,000, 8,800, 7,600, 6,400, 5,200, 4,200
- Trigger switch for maximum ease of use
- Powerful, easy to handle
- Electronic speed control ensures constant RPM even under heavy loads
- Soft start feature protects mechanical and electronic components
- Electronic shutdown device deactivates motor in case of extreme overload
- Sturdy, maintenance friendly design
- Multi-purpose machine, suitable for use with many different tools

Replacement Accessories

	Key	EDP No.
	Allen Wrench 4mm	93340
	Face Wrench	93395

Adjustable guard

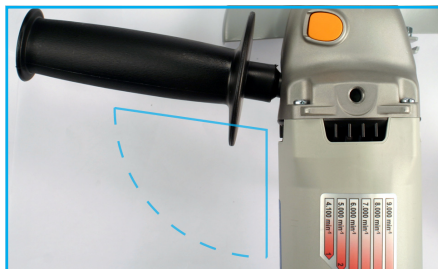

Multiple handle positions

Locking trigger-style throttle

Rotating head for both grinding and cutting

Ergonomically-angled handle

Front exhaust
